Jeron Electronic Systems, Inc. and Provider® Nurse Call Featured at HIMSS15 in Chicago

FOR IMMEDIATE RELEASE

March 30, 2015 - Chicago, Illinois - HIMSS (Healthcare Information and Management Systems) Annual Conference happening April 13th through the 15th in Chicago's McCormick Place, is the largest health IT event in the industry. Nearly 38,000 Healthcare professionals, clinicians, and executives came to the conference last year and more is expected in 2015.

Jeron Electronic Systems, Inc. will be exhibiting in force in Booth #2663. Jeron will present to emerging health IT leaders on the importance of caregiver workflow and patient experiences by providing the latest Nurse Call technology processes for caregiver/patient stakeholders. The focal point of the HIMSS Conference itself will be healthcare workflow core competencies, i.e., streamlined communication, collaboration, teamwork, and change adaptability.

Myles Cochran, Director of Marketing for Jeron Electronic Systems, Inc. states that it's important for exhibitors to come to HIMSS Conference ready to give specific examples of successful healthcare implementations. "We come to HIMSS because we want to show how to improve caregiver workflows and in turn, patient experiences. Our flagship Nurse Call System, Provider® 790, provides clinical communications and integrations that streamline caregiver to patient interactions. We will discuss advanced Nurse Call technology like VoIP communications, PC Console Displays that relay real-time events, and integrated wireless devices that provide staff mobility and efficiency. Our installed facilities have seen decreased patient waiting times, increased patient throughputs, and higher satisfaction scores because of these integrations."

Provider 790 Nurse Call System's workflow options are designed to streamline hundreds of customizable events, alert designated staff members to active workflow events via terminals and consoles, pagers and phones, or networked displays – all without noisy overhead pages or time-wasting manual follow-up. Provider Nurse Call serves the needs of healthcare facilities including acute care hospitals, skilled care and nursing home facilities, assisted living and long-term care facilities.

Visit Jeron Electronic Systems, Inc. and Provider 790 Nurse Call Systems at HIMSS BOOTH #2663. Informative demonstrations and information about the future direction of Nurse Call communications will be given during HIMSS show hours.
