

## Jeron Launches New, Affordable Pro-Alert™ 570 Nurse Call for Senior Living

### FOR IMMEDIATE RELEASE

**NILES, IL – September 5, 2017** -- Jeron Electronic Systems, Inc.'s new Pro-Alert 570 Nurse Call System provides senior residents with instant and direct alerting to their caregivers; a budget conscious package with minimal wiring for a low-cost installation and low ongoing maintenance.

Increasing both resident and staff satisfaction, the Pro-Alert 570 includes flexible features such as wireless pendants to place calls and daily check-in that maintains residents' independence while monitoring their safety and well-being, assuring family that their loved one is receiving the best quality of care. All resident and staff interactions on the Pro-Alert 570 System are documented. The activity reports provide a clear picture of staff responses, highlights bottlenecks, and any call and response issues that could adversely affect resident satisfaction and safety.

Pro-Alert Nurse Call uses flexible and direct means of alerting caregivers to residents' needs throughout the facility. Nurse consoles in key staff areas along with wireless pocket page alerts to mobile caregivers means instant notification of routine or emergency calls from residents. These instantaneous alerts to caregivers speed response and minimizes potentially dangerous situations for residents.

*“Staffing levels and availability can be a challenge affecting responsiveness to residents in a skilled care environment. To support residents and caregivers, Pro-Alert 570 Nurse Call automates processes and workflows in turn supporting a timely response to residents,” states Myles Cochran, Director of Marketing at Jeron Electronic Systems. “When residents are attended to in a timely manner, the everyday experiences for both staff and residents improve dramatically. Pro-Alert 570 Nurse Call assists in that attentiveness and provides critical life safety emergency signaling all at the same time.”*

The system includes a full complement of beside, bathroom, and emergency stations giving residents easy access to place calls. The nurse console is equipped with an easy-to-read text display of calling stations while the annunciator panel has corresponding call places LEDs for each room. This allows caregivers to quickly and accurately triage active calls from residents. Underwriters Laboratories UL1069 listing for Nurse Call Equipment along with
