

## Successful Open House at New Corporate Facility for Jeron Electronic Systems, Inc.

### FOR IMMEDIATE RELEASE

**NILES, IL - April 21, 2016** -- In Mid-April, Jeron Electronic Systems, Inc. hosted an Open House for key customer partners at their new manufacturing & design facility location in Niles, Illinois. A strong growth over the last few years was a key driver for the move to a new high-tech facility. The Open House made for a very full house as customer partners attended from the United States, Mexico and Canada.

*Ericka Baran, Andrew Przybylo (Mayor of Niles), Jerome Chesnul, & Matthew Chesnul*

A highlight of the day was the grand opening and ribbon cutting ceremony for the Provider Technology Center with the Mayor of Niles. Ericka Baran, Jeron's VP of Sales & Marketing, who hosted the Open House, states that, "As a 2nd generation family-owned business, we believe in the comprehensive quality control of our systems from the design, manufacturing, installation, to on-going support all under one roof. We are so proud to have over 50 years of experience manufacturing 'Made in the USA' communications solutions and look forward to continuing that tradition at our new facility."

*Surface Mount Technology and Jeron's Training Classroom*

Jeron staff took visitors throughout the entire facility to showcase how Jeron controls every part of the design and manufacturing process in-house. In Jeron's manufacturing area, visitors saw the entire process for making surface mount PCB assemblies. For ongoing support of Jeron's systems once they leave the factory, the tour continued to the expanded training room which includes multiple test systems allowing for hands-on certification.

*Hands-On Provider Technology Center*

At the Provider Technology Center, guests were given hands-on presentations of Jeron's state-of-the-art nurse call systems in realistic clinical environments. All of the Provider nurse call integrations and options are on display allowing visitors to see how Provider offers real solutions for workflow, safety, and satisfaction issues in both acute and skilled healthcare settings. The Provider Technology Center is available for demonstration of the hardware, integrations, and software of both Provider 790 and 680 Nurse Call Systems.

**ABOUT JERON ELECTRONIC SYSTEMS, INC:** A leader in communications systems for healthcare and institutional markets, Jeron Electronic Systems, Inc. is the engineering and manufacturing force behind Provider Nurse Call Systems. Provider systems facilitate communications, speed response times and integrate with a wide spectrum of alerting and notification technologies, all focused on delivering the highest levels of patient care.
