## Sales Increase for Jeron's Area of Rescue Systems

**Niles, IL – December 6, 2017** - Jeron Electronic Systems, Inc. is excited to announce and welcome Bonnie Noga as the Company's Security Sales Specialist focusing on Pro-Alert™ 480 Area of Rescue System. Noga will be responsible for sales, increasing revenue, and contributing product feedback from Jeron Security dealers and installers.

Noga knows all too well how invaluable a fully integrated emergency system can be in industrial structures. She states, "Providing emergency egress communications from stairwells is becoming increasingly commonplace in high-rise and commercial facilities. Building owners and developers want to ensure safety to their building occupants by providing a reliable and clear exchange for all parties in an emergency."

Pro-Alert 480 Area of Rescue System is an emergency communications system typically located in a specified area that is a means of egress for persons who cannot exit on their own. The designated area is for building occupants to safely assemble by an exit and await assistance or instructions from municipal responders.

### **Pro-Alert 480 Features and Benefits:**

- Common Bus Station Cable, CAT-5 or CI Cable; No Home Runs
- Fully Supervised with Individually Addressable Components
- Start with 128 Stations - Expandable
- UL Listed Power Supply with Battery Backup
- Simple Press of a Button for Hands-free Communication
- PBX Interface for Off-site Calling (with Location Announcements – 2 Way Audio)
- Traditional or Touchscreen Console Handset
- Choice of Vandal-resistant, Stainless Steel Call Stations

Bonnie grew into an industry leader by providing integrated security systems with Siemens, Johnson Controls, and Stanley Security. "I am thrilled to be a part of the Jeron Security Sales team. My career has been spent in the security technology industry and I look forward to continuing Jeron's 50+ year tradition of providing life safety solutions to our current and future customers."

Ericka Baran, Vice President Sales and Marketing, states "We are very excited to welcome Bonnie to our team at Jeron. Her experience will not only bring a tighter focus on our relationships with Security dealers and installers, but will also be a great resource for our employees and vendors who come into contact with her."

**ABOUT JERON ELECTRONIC SYSTEMS, INC:** A leader in communications systems for the healthcare and life safety industries, Jeron Electronic Systems, Inc. is the engineering and manufacturing force behind Provider Nurse Call and Pro-Alert Area of Rescue Systems. These systems facilitate communications, help speed response times and integrate with a wide spectrum of alerting and notification technologies, all focused on delivering the highest levels of safety.

From its founding in 1965, Jeron has earned a solid reputation for innovation, quality and service. Jeron products are engineered and manufactured in the USA. For more information please visit, [www.jeron.com](http://www.jeron.com)
