Virtual Tours Available to Experience the Flexibility of Provider Nurse Call Systems

FOR IMMEDIATE RELEASE

December 9 – Niles, Illinois – The Provider® Technology Center, located within Jeron Electronic System’s corporate office and factory, is ready for virtual “hands-on” tours for healthcare organizations to explore all of the options available as part of a comprehensive nurse call alerting, communications, and workflow solution. The realistic clinical environments in the Provider Technology Center showcase the most popular features and integrations available for the state-of-the-art Provider nurse call system.

Jeron’s Provider scalable nurse call solutions give healthcare facilities a complete solution readily scalable for a single nursing unit, clinics, skilled nursing, to across an entire campus or an IDN as an enterprise solution. Throughout the pandemic, Jeron has remained open to manufacture nurse call systems supporting both temporary field acute hospitals and skilled facilities to enable direct patient to caregiver communication without requiring caregivers to gown up in PPE.

Jeron’s Provider Technology Center is the setting for your personalized web presentation and tour where Provider nurse call and integrated options are on display allowing virtual visitors to see real solutions for workflow, safety, and patient satisfaction in both acute and skilled healthcare settings. Each web tour is customized to show how Provider nurse call solutions can address their unique challenges and pain points.

Director of Jeron Marketing, Myles Cochran remarks, “For the convenience and safety of our healthcare customers, we are ready to host remote presentations and demonstrations at our Provider Technology Center. We are equipped to show live scenarios online to small or large clinical groups; architects, technology consultants and more. Our new virtual tour video gives a flavor of what your remote meeting will be like including the things you can experience and introduces you to the people hosting your meeting who are ready to explain the options available to address your concerns and initiatives for patients and staff. When you register for a virtual tour, we will work with you to customize your meeting to cover all of your needs.”

Please view the Provider Technology Center Virtual Tour and you can register for your own tour at: jeron.com/visit-jeron.
