

## Supporting the Most Popular Integration Partners

Jeron's Provider Nurse Call Platforms are the foundation for a seamlessly integrated healthcare solution for alerting, communication, staff mobility, workflow efficiencies, and accountability to support the goals of patient/resident safety and satisfaction.

Jeron's open integration approach lets organizations choose the perfect combination of integrations to create a customized solution to meet their budget and

needs for today with flexible expansion options for tomorrow. The range of options within the Provider Nurse Call platforms and the broad choice of integration partners translates into complete solutions for many types of healthcare facilities including Acute, Ambulatory Surgery, Clinics, Skilled Nursing, Sub-Acute, Rehab, and other Long Term Care facilities. Jeron continues to expand our technology partners for both our existing and future Provider nurse call users.
